How to PEEL

- **Point:** Make a clear argument.
- **Evidence:** Prove it with an example, fact, policy, case study, or real-life situation.
- **Explain:** Analyse *why* the evidence supports your argument
- **Link:** Connect the argument back to the essay question and, if appropriate, introduce the next idea.

- P: What is my point of argument?
- E: What example can I give to support my argument?
- E: Why does this example prove my point? How does it help?
- L: How does this answer the essay question?

'School uniforms are an outdated practice and should be discarded in modern schools.' To what extent to you agree or disagree with the statement.

_____

_____

Argument 1: School uniforms reduce the amount of bullying in schools

P— Point

School uniforms should not be discarded because **they can help reduce bullying** based on learners' clothing and financial backgrounds.

E — Evidence / Example

For example, learners who cannot afford expensive branded clothing may be teased or excluded by their peers because they wear cheaper clothes.

E — Explanation

School uniforms reduce visible differences in clothing and make it less obvious which learners can afford designer brands. This can reduce pressure to keep up with fashion trends and help learners feel less judged by their appearance or financial circumstances.

L — Link

Therefore, rather than being an outdated practice, school uniforms can still play a valuable role in promoting equality and reducing clothing-related bullying in modern schools.
